Re: AB384 – National Popular Vote

Governor Gibbons, Assemblymen Christensen, and Senator Hardy;

I am disgusted that a bill that would violate Article 2 of the US Constitution has been introduced in the State of Nevada by Assemblymen Claborn, Koivisto, Ohrenschall and Pierce. I feel that the Constitution is very clear on how the President of the United States is to be elected. If we, the People, want to change the way the US President is elected, then we should do it the right way, amend the US Constitution. Until then, this effort to elect the president by popular vote, rather than by the Electoral College, is simply trying to circumvent the Constitution and is wrong. Furthermore, the popular of Nevada is small and passing of this bill would cause the importance of our state to diminish. Few, if any, Presidential Candidates would visit our State. I will remember anyone who votes for this bill and will do all I can to get all I know to vote them out of office.

Thanks,

Michael H. Cox
